Although she's usually a serious girl, she sure gets all excited when she gets drunk and shows a different side from her usual self ♡

The summary so far. Arisa has lost her memories of recent years due to amnesia. Despite being rather surprised by the sudden news of her same-sex relationship with Mari-san, she isn't the least bit concerned over her amnesia at all. In return for their memories together that she has lost, these once-again-new-lovers' antics make for a fresh and exciting everyday life...?! This is an earnestly cheerful amnesia comedy!

Ariso: She lost her memories with Mari due to amnesia. Very optimistic
